

Mass Spectrometry Sample Analysis

Washington University Biomedical Mass Spectrometry Resource
 Department of Chemistry, Campus Box 1134
 1 Brookings Drive, St. Louis, MO 63130-4899
 Telephone (314) 935-7486 FAX (314) 935-7484

National Institute of
 General Medical Sciences

Submitter _____	Bill to _____
Investigator _____	Address _____
Institution _____	_____
Address _____	_____
_____	_____
Telephone _____	Fax _____
Email _____	Purchase Order _____

All publications (abstracts, manuscripts, chapters, progress reports) that report data obtained using this service must acknowledge support from NIH grant 8P41GM103422 and must comply with the NIH public access policy.

Desired Service				Low Res	Hi Res (5 ppm)	Pos	Neg
Electrospray ionization (ESI)							
LC/MS							
LC/MS/MS							
MALDI (High res only)							
GC/MS	EI	CI	TSP				
High MW Intact Mass			ECD				

Sample Information

Sample ID _____ Estimated purity _____

Sample Formula _____ Solubility (e.g., MeOH) _____

Nominal Molecular Wt. _____ Stability(Y/N) Air ___ Water ___ Light ___ Heat ___

Storage Temp (e.g., 0°C, -20°C) _____ Sample weight _____

Comments and Structure (Add extra page with structures for electronic or multiple submissions)
